

POJ - Microsoft Project and Atlassian Jira integration

Written by crydev

Software for integration Microsoft Project and Jira.

With this program you can import and update tasks in MS Project from the Atlassian Jira.

Available for free download Trial version (free 30 day).

The program tested with MS Project 2007 and Atlassian Jira 3.13.

To work is required .Net Framework 3.5

Installation:

1. Copy the file poj-rpc-1.x.x.jar from the archive with the program in [Jira-home]atlassian-jiraWEB-INF\lib and restart Jira.
2. Start the POJ-1.x.x.exe and follow the instructions. At the end of the installation you will be asked to install Visual Studio Tools for Office and POJ addition for Microsoft Project.
